Indore, Madhya Pradesh - 452016, India

OBJECTIVE

Motivated Software Developer with a strong foundation in programming, databases, and web technologies. Seeking an opportunity to contribute to innovative projects, enhance technical expertise, and grow within a dynamic development team.

EXPERIENCE

- **Alit Tech [⬤]**   *June 2025 - September 2025*
  MERN Stack Intern   Indore, India
  ◦ Developed full-stack web features using React, Node.js, Express, and MongoDB, achieving seamless integration between frontend and backend.
  ◦ Implemented authentication and role-based access with JWT and NextAuth.js, enhancing application security and user management.
  ◦ Migrated data persistence from local storage to MongoDB, improving scalability and enabling multi-user support.
  ◦ Built responsive UI components with Material-UI (MUI) and Tailwind CSS, enhancing cross-device user experience.
  ◦ Conducted API handling with Fetch, Axios, and React Query, identifying best practices for efficient data fetching.
  ◦ Presented project demos to peers and mentors, receiving positive feedback for clean architecture and scalability planning.

EDUCATION

- **SAGE University**   *July 2022 - September 2024*
  Master's of Computer Application   Indore, India
  ◦ CGPA: 7.09

- **St.Paul Institute of Professional Studies**   *July 2022*
  July 2019   Indore, India
  ◦ Grade: 67.7

PROJECTS

- **Recipe's Hub: A full-stack web application to create, manage, and explore personalized recipes with a responsive UI**
  Tools: [React JS, Material UI, TailwindCSS, TypeScript]   []
  ◦ Implemented local storage for recipe management, achieving seamless data persistence across sessions.
  ◦ Built a responsive UI with React + MUI, ensuring optimal user experience across devices.
  ◦ Integrated inline form validation to improve usability and reduce input errors.
  ◦ Planned migration to MongoDB, enabling scalability and multi-user data handling.

Tomato – A Zomato clone for browsing restaurants, managing menus, and placing orders *June 2025 – August 2025*
Tools: React, Express, MongoDB, Mongoose   []
- Developed RESTful APIs with Express and Mongoose to handle restaurant listings, menus, and user data efficiently.
- Implemented user authentication and session management for secure access and personalized experience.
- Built responsive front-end with React to display restaurants, menus, and order details across devices.
- Integrated MongoDB for dynamic data storage, enabling seamless addition and retrieval of restaurant and order information.

SKILLS

- **Programming Languages:** JavaScript, TypeScript, C, C++
- **Web Technologies:** React, Node.js, Express.js, Next.js, HTML5, CSS3, TailwindCSS, Material-UI
- **Database Systems:** MongoDB, Mongoose
- **DevOps & Version Control:** Git, GitHub, Docker (Basics)
- **Other Tools & Technologies:** Postman, Redux, React Query, Socket.io

CERTIFICATIONS

- **MERN Stack Internship (3 Months)** – Alit Tech, Indore   *June 2025 – September 2025*
